This is the new Fly 2 seater commuter Electric Car with a double battery system for extra range.

Simple and easy to use, just fly around

The Fly Inside. Only a throttle, brake and hand brake.

With convertible Angelo in white. Fun, fully convertible with add-on side panels for wet

The convertible Angelo in yellow. Alloy wheels, Morgan sports car looks.

The convertible Angelo in red.

Electric cars are becoming more popular due to their low operating costs and reduced environmental impact. They are also becoming more affordable as technology advances and production scales up.
